

PROJECTSIGHT 360 CAPTURE

Stop managing apps.
Start managing
the project.

-  360-degree visibility
-  One-button simplicity
-  AI-powered alignment
-  Instant dispute resolution

01 Setup

Open **ProjectSight Mobile**, connect to your camera, select a drawing and tag your location.

02 360 Capture

Navigate through the jobsite taking **individual photos** or **recording a video**.

03 Cloud Processing

Our **AI-powered cloud processing** automatically extracts key stations and maps them to drawing before blurring any faces from all photos.

04 Visualise and Collaborate

Open **ProjectSight Web** to view the capture linked to your drawing. View your captures and **enhance your issue management workflow** with real world data!
